What others are saying

Sensei David Lamb: "WOW! In spite of the rain, another invigorating SummerFest! Every year, you find a way to help us rekindle old friendships, initiate new ones, experiment with new techniques and ideas! . . . and have fun! I thoroughly enjoyed myself and learned at the same time. From Sanchin on the beach, to grappling, to new approaches to Uechi techniques to anti-grappling, there was something for everyone. I especially love coming to camp so I can be a student again as I'm always learning. I also find this to be a time to recharge my batteries, as I discover something new/different, and can return to my classes with fresh ideas.

With my renewed energy, this re-energizes the students as well. So thank you George, for being such an inspira-

tion. Your open mindedness, your positive energy, your insightfulness and your visions for Uechi are indeed, inspirational. Because of all this, you have an impact upon others evident at SummerFest with all of your students and seniors. For this, I thank you greatly. Yours in Budo, David Lamb (Nebraska)

Sensei Van Canna: ". . . This will be a great camp, many people are coming, the training will be hard but fun and Bob Campbell will do something special for us. There will be a huge tent with chairs and tables and room for seminars out of the sun, for people who cannot bear the hot sun.. The fun is unbelievable the training extremely intense. Come on down, don't wake up when it is over and kick your ass for missing it. Not many chances like this in life. When you say: too busy; too expensive; my wife won't let me; there is nothing I can learn there ..look at yourself in the mirror to see how foolish you look. Get there, make some new friends and learn something you did not know existed."

*"You know
It's going to be a great weekend."
